British Journal of Orthodontics

Volume 24 (1997)

Subject Index

Archwires
A comparison of self-ligating and conventional orthodontic bracket systems 309

Bond failure rates
The effect of timing archwire placement on in vivo bond failure 243
Bond Strength
Alternatives to ceramic brackets: the tensile bond strengths of two aesthetic brackets compared ex vivo with stainless steel foil-mesh bracket bases 133
Bond strength and clinical efficiency for two light guide sizes in orthodontic bracket bonding 35
Bonded retainers
A cautionary tale of simplified retention 113
Brackets
A comparison of self-ligating and conventional orthodontic bracket systems 309

Cephalometrics
A Hypertext tutorial for teaching cephalometrics 325
Glenoid Fossa position in different facial types: A Cephalometric Study 55
Cephalometry
A cephalometric evaluation of patients presenting with persistent digit sucking habits 17
Multiple linear regression as an analytical tool in cephalometric studies 61
Ceramics
Electrothermal debonding of ceramic brackets: An ex vivo study 237
Class III
Finite element analysis of the cranial base in subjects with Class III malocclusion 103
Clinical Efficiency
Bond strength and clinical efficiency for two light guide sizes in orthodontic bracket bonding 35
Combined clinics
A combined orthodontic/restorative clinic. Rationale, Evolution and Experience 159
Complications
Supernumerary premolar teeth in siblings 297
Computed Radiography
Phosphor stimulated computed cephalometry – reliability of landmark identification 301
Computer Assisted Learning
A Hypertext tutorial for teaching cephalometrics 325
Cranial Base
Finite element analysis of the cranial base in subjects with Class III malocclusion 103

Debonding Force
The Effect of timing archwire placement on in vivo bond failure 243
Dental Debonding
Electrothermal debonding of ceramic brackets: An ex vivo study 237
Dental Pulp
Electrothermal debonding of ceramic brackets: An ex vivo study 237
Dentist Perception
Factors affecting the outcome of orthodontic treatment within the General Dental Services 217
Diphenylhydantoin
Effect of Phenytoin on peridontal tissues exposed to orthodontic force – An experimental study in rats 209
Direct bonding
Alternatives to ceramic brackets: the tensile bond strengths of two aesthetic brackets compared ex vivo with stainless steel foil-mesh bracket bases 133

Enamel Surface
Electrothermal debonding of ceramic brackets: An ex vivo study 237
Extraction
Comparison of the changes in facial profile after orthodontic treatment with and without extractions 25

Facial Profile
Comparison of the changes in facial profile after orthodontic treatment with and without extractions 25
Fibroblasts
Effect of Phenytoin on peridontal tissues exposed to orthodontic force – An experimental study in rats 209
Finger Sucking
A Cephalometric evaluation of patients presenting with persistent digit sucking habits 17
Finite Element
Finite element analysis of the cranial base in subjects with Class III malocclusion 103
Friction
A comparison of self-ligating and conventional orthodontic bracket systems? 309

General Anaesthetic
The orthodontic management of patients with profound learning disability 117
Generalised Linear Models
Multiple linear regression as an analytical tool in cephalometric studies 61
Glenoid Fossa
Glenoid fossa position in different facial types: A Cephalometric Study 55

Hypertext
A Hypertext tutorial for teaching cephalometrics? 325

General Anaesthetic
The orthodontic management of patients with profound learning disability 117
Generalised Linear Models
Multiple linear regression as an analytical tool in cephalometric studies 61
Glenoid Fossa
Glenoid fossa position in different facial types: A Cephalometric Study 55

Hypertext
A Hypertext tutorial for teaching cephalometrics? 325

Impaction
Morphology of anterior teeth associated with displaced canines 41
Interceptive Treatment
Applicability of Interceptive Orthodontics in the community223
Isolated Society
Occlusal traits in a group of school children in an isolated society in Jerusalem 229

Lay Opinion
Patient and parent opinion of the use of recycled orthodontic brackets – an international comparison 329
Learning Disability
The orthodontic management of patients with profound learning disability 117
Light Guide Size
Bond strength and clinical efficiency for two guide sizes in orthodontic bracket bonding 35
Light-cured Adhesives
Bond strength and clinical efficiency for two light guide sizes in orthodontic bracket bonding 35
Lower Lip
Temporary paresthesia of the lower lip: a complication of orthodontic treatment. A case Report 13

Magnets
Nickel-Titanium coil springs and repelling magnets: a comparison of two different intra-oral molar distalization techniques 47
Malocclusion
A cephalomatric evaluation of patients presenting with persistent digit sucking habits 17
Glenoid fossa position in different facial types: A cephalometric study 55
Maxillary Canines
Morphology of anterior teeth associated with displaced canines 41
Maxillary Lateral Incisors
Morphology of anterior teeth associated with displaced canines 41
Molar distalization
Nickel-Titanium coil springs and repelling magnets: a comparison of two different intra-oral molar distalization techniques 47
Morphometry
Finite Element analysis of the cranial base in subjects with Class III malocclusion 103
Multiple Linear Regression
Multiple linear regression as an analytical tool in cephalometric studies 61
Multivariate Analysis
Multiple linear regression as an analytical tool in cephalometric studies 61

Ni-Ti coil springs
Nickel-Titanium coil springs and repelling magnets: a comparison of two different intra-oral molar distalization techniques 47
Non-extraction
Comparison of the changes in facial profile after orthodontic treatment with and without extractions 25

Occlusal Indices
Factors affecting the outcome of orthodontic treatment within the General Dental Services 217
Occlusal Traits
Occlusal traits in a group of school children in an isolated society in Jerusalem 229
Orthocephalization
Finite element analysis of the cranial base in subjects with Class III malocclusion 103
Orthodontic Bracket Bonding
Bond strength and clinical efficiency for two light guide sizes in orthodontic bracket bonding 35
Orthodontic Brackets
Alternatives to ceramic brackets: the tensile bond strengths of two aesthetic brackets compared ex vivo with stainless steel foil-mesh bracket bases 133
Orthodontic Education
A survey of the opinions of orthodontic specialist trainees in the UK 163
Orthodontic Management
The orthodontic management of patients with profound learning disability 117
Orthodontic Training
A survey of the opinions of orthodontic specialist trainees in the UK 163
Orthodontic treatment
Comparison of the changes in facial profile after orthodontic treatment with and without extractions 25
Temporary parasthesia of the lower lip: a complication of orthodontic Treatment. A Case Report 13
Orthodontic/Restorative Interface
A combined orthodontic/restorative clinic. Rationale, Evolution and Experience 159
Osteoclasts
Effect of Phenytoin on peridontal tissues exposed to orthodontic force – An experimental study in rats 209
Osteoid
Effect of Phenytoin on peridontal tissues exposed to orthodontic force – An experimental study in rats 209

Phosphor Stimulated
Phosphor stimulated computed cephalometry – reliability of landmark identification 301
Postgraduate Education
A survey of the opinions of orthodontic specialist trainees in the UK 163
Postgraduate Opinion
A survey of the opinions of orthodontic specialist trainees in the UK 163

Questionnaire Survey
Patient and parent opinion of the use of recycled orthodontic brackets – an international comparison 329

Rats
Effect of Phenytoin on peridontal tissues exposed to orthodontic force – An experimental study in rats 209
Recycled Brackets
Patient and parent opinion of the use of recycled orthodontic brackets – an international comparison 392
Relapse
A cautionary tale of simplified retention 113

Saliva
A comparison of self-ligating and conventional orthodontic bracket systems?

Schoolchildren
Occlusal traits in a group of school children in an isolated society in Jerusalem 229
Self-ligating
A comparison of self-ligating and conventional orthodontic bracket systems 309
Siblings
Supernumerary premolar teeth in siblings 297
Supernumerary Teeth
Supernumerary premolar teeth in siblings 297

Temporary Paresthesia
Temporary paresthesia of the lower lip: a complication of orthodontic treatment. A Case Report 13
Treatment
Supernumerary premolar teeth in siblings 297
Treatment Need
Factors affecting the outcome of orthodontic treatment within the General Dental Services 217
Treatment Outcome
Factors affecting the outcome of orthodontic treatment within the General Dental Services 217

Variance Reduction
Multiple linear regression as an analytical tool in cephalometric studies 61
